

INSTRUCTOR GUIDE

MODULE 5: EARTH MATERIALS

LEARNING OUTCOMES

- Identify the main types of rocks, how they form, and how they transform from one type to another
- Examine the main types of rocks found in Ontario
- Describe how earth materials are useful to society

MODULE CONTENTS

- Activity 1: Rocks and Minerals
 - Instructions: Navigate through the rock cycle to learn about different types of rocks, what they look like, what minerals are they comprised of, and how they are formed
- Activity 2: Rock Walk
 - Instructions: Watch a video of the University of Toronto Scarborough Rock Walk to learn about rocks found throughout Ontario
